

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (previously presented) A seal for an optical unit constituting an automobile indicator or illuminating light, intended to be mounted between the optical unit and a support in which it is inserted, the seal comprising:

a sheet of flexible material having a first side, a second side, an outer perimeter, a thickness defined by the distance between the first side and the second side and an internal orifice defining an inner perimeter dimensioned to receive the unit, the first side having a first surface and a second surface each of which extending from the inner perimeter to the outer perimeter of the sheet, wherein the sheet of flexible material comprises at least one material with a self-adhesive surface skin formed by extrusion; and

at least one lip with a height greater than the thickness of the sheet of flexible material disposed on the first surface of the first side and extending perpendicular thereto, wherein the second surface of the first side comprises no lip.

2. (previously presented) The seal according to claim 1, which consists of various coextruded materials with different hardnesses.
3. (previously presented) The seal according to claim 1, which consists at least partially of cellular EPDM.
